### ***Specification***

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the specification does not provide support for a device having a tissue displacement device with pivotable and anvil portions along with a fastening device, especially one which is configured to pass through the tube relative to the displacement device.

### ***Allowable Subject Matter***

Claims 23-31 are allowable and upon correction of the objection to the specification will be allowed. However, the examiner stands by the objection and notes that even though the subject matter of claim 31 is patentable, it is not patentable to the applicant due to the lack of support for such a device.

### ***Response to Arguments***

Applicant's arguments filed 09-19-2005 have been fully considered but they are not persuasive.

Applicant argues that there is no requirement that a single embodiment disclose all of the various aspects of a claimed invention. This is not persuasive as the M.P.E.P. requires that the claimed invention find antecedent basis and support in the specification. The subject matter of claim 31 in addition to that of claim 23 claims an invention not found in the specification. The fact that applicant now maintains that the fastener delivery device 24 can be used with any of the other disclosed devices is not sufficient as this was not part of the original disclosure.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
